Preliminary

1. Short title, extent and commencement. - (1) This Act may be called The Mines and Minerals [(Development and Regulation)] Act, 1957.

(2) It extends to the whole of India.

(3) It shall come into force on such date as the Central Government may, by notification in the Official Gazette, appoint.

Object & Reasons ▼

Statement of Objects and Reasons. - The differentiation made between petroleum and other minerals in items 53 and 54 of the Union List has rendered separate enactments for the two necessary. The present Bill deals only with minerals other than petroleum. At present both are dealt with under the Mines and Minerals (Regulation and Development) Act, 1948 (53 of 1948).

Opportunity has been taken of putting forward this legislation to make some necessary changes in the provisions of the existing Act dictated by experience. These changes refer to:-

- (i) the prescription of a maximum limit of 50 square miles for a prospecting license [clause 6(1)];
- (ii) the grant of a second renewal to the holder of a mining lease for iron ore and bauxite under certain circumstances [clause 8(2)];
- (iii) the authorisation of the Central Government to undertake prospecting and mining operations in any land after prior consultation with the State Government [clause 16];
- (iv) the promulgation of rules for the beneficiation of low grade ores [clause 17(2)(c)];
- (v) the recovery of royalty, dead rent and other sums due to Government in the same manner as arrears of land revenue [clause 24]; and
- (vi) the delegation of certain powers to State Governments and by State Governments to their subordinate authorities [clause 25].

A number of provisions hitherto dealt with under the rule-

making powers of the Central Government have been transferred to the Act in order to restrict the scope of subsidiary legislation. These provisions are:-

- (i) no concession shall be granted to a person not in possession of a certificate of approval [clause 5(1)];
- (ii) the maximum period for which a prospecting license or a mining lease may be granted [clauses 7 and 8];
- (iii) the power to prescribe rates of royalty for various minerals [clause 9 and Schedule II];
- (iv) applications for prospecting licenses and mining leases to be made in prescribed forms [clause 10(1)];
- (v) the priorities to be observed in the grant of prospecting licenses and mining leases [clause 11(2)]; and
- (vi) the power to make rules for regulating the grant of mineral concessions [clause 13].

Amendment Act 15 of 1958-Statement of Objects and Reasons.-In view of its importance as basic fuel and the position it occupies in the country's economy, coal has always been treated differently from other minerals. It is in recognition of this that no rules have been framed so far under section 7 of the Mines and Minerals (Regulation and Development) Act, 1948, in regard to modification of the terms and conditions of mining leases for coal granted before the commencement of that Act, though other minerals have been covered.

(2) The Mines and Minerals (Regulation and Development) Act, 1957 (67 of 1957), which replaces the Act of 1948, however, specifically extends the rate of royalty prescribed in the Second Schedule to mining leases granted before the 25th October, 1949, in respect of coal also and makes it obligatory for the other terms and conditions of such leases to be brought into conformity with the provisions of the Act and the rules made under sections 13 and 18. It is considered that these changes will have numerous undesirable consequences. The area covered by these mining leases are principally in West Bengal and Bihar and they account for as much as 80 per cent. of the total coal production in the country. The royalties paid on this coal vary over a wide range but are generally much below the rate per ton prescribed in the Second Schedule. A sudden and uniform increase of these royalties is likely to have an

unsettling effect on the industry and may retard the programme of coal production under the Second Five Year Plan. The same adverse effect would be felt by a sudden modification of the other terms and conditions.

3. The object of the present Bill is accordingly to exempt mining leases for coal granted before the 25th October, 1949, from the operation of sub-section (1) of section 9 and sub-section (1) of section 16 of the Act, with powers to Government to extend these provisions to such leases at a future date subject to such exceptions and modifications as may be considered necessary.

Amendment Act 56 of 1972-Statement of Objects and Reasons. - Over fourteen years have elapsed since the Mines and Minerals (Regulation and Development) Act, 1957 came into force. In course of these years, large strides have been made in the development of mines and minerals in the country. The production tasks before the nation in the fields of steel, non-ferrous metals, fertilizers, chemicals, power generation, etc. call for measures for systematic and massive utilisation of the natural resources of the country.

2. The Mineral Advisory Board has, from time to time, reviewed the working of the Mines and Minerals (Regulation and Development) Act, 1957 and made recommendations for amending some of the existing provisions and the introduction of new provisions covering certain areas not so far dealt with in the Act. These recommendations cover the following principal points:-

- (i) imposition of a ceiling on individual holdings of prospecting licenses and mining leases;
- (ii) imposition of a specific obligation on holders of mining leases in respect of payment of royalty for minerals removed by their agents, sub-lessees, or employees;
- (iii) provision of a statutory basis for calculation of dead rent;
- (iv) introduction of regulations governing mineral concessions in respect of minerals underlying the ocean within the territorial waters or the continental shelf of India;
- (v) application of Minor Mineral Rules to quarry leases;
- (vi) provision for modification of mining leases granted by former landlords before the vesting of their estates under land reform enactments;

- (vii) enhancement of penalties for infringement of Mineral Concession Rules and compounding of offenses;'
- (viii) assumption of power by Government to authorise investigation for minerals in lands in respect of which the minerals vest in private persons;
- (ix) assumption of power by Government to authorise investigation for minerals in lands already held under prospecting license or mining lease; and
- (x) creation of a first charge on the assets of the holder of a mineral concession on account of mining dues.

3. The conference of State Government Ministers of Mining and Geology held on the 27th July, 1972, further recommended that in the interests of mineral development, Government should assume powers for termination of an existing mining lease so as to enable mineral development of that area by a Government company or corporation owned or controlled by Government.

Amendment Act 37 of 1986-Statement of Objects and Reasons.-The Mines and Minerals (Regulation and Development) Act, 1957 provides for the regulation of mines and the development of minerals under the control of the Union. Since the last amendment of the Act in 1972, many problems have come to the force. The adverse effect of mining operation on ecology and environment have increasingly come to notice. In many cases, mining operations have been undertaken without proper prospecting resulting in unscientific mining. Further, a number of Committees have stressed the need for amending certain provisions of the Act with the object of removing bottlenecks and promoting speedy development of mineral based industries. The State Governments and representatives of trade and industry have in formal forums like the Mineral Advisory Council as well as in other forums, expressed the desirability of taking a fresh look at the various provisions of the Act with a view to making them more effective and development-oriented.

2. The suggestions made from time to time have been considered and incorporated in the present Bill, which, inter alia, includes the following salient features, namely:-

- (i) inclusion of 11 more minerals of national importance in the First Schedule to the Act;
- (ii) premature termination of prospecting licenses and

- mining leases on ecological and other grounds;
- (iii) dispensing with the Certificate of Approval, Income-tax Clearance Certificate, etc., for the grant of prospecting licenses and mining leases;
- (iv) prospecting of an area and preparation of mining plan as a pre-condition for the grant of a mining lease;
- (v) rationalisation of the period of mining leases, and renewals thereof;
- (vi) shorter periodicity for purposes of revision of royalty and dead rent; and
- (vii) provision for increasing the quantum of punishment to curb illegal mining activities.

2. Declaration as to the expediency of Union control. - It is hereby declared that it is expedient in the public interest that the Union should take under its control the regulation of mines and the development of minerals to the extent hereinafter provided.

3. Definitions. - In this Act, unless the context otherwise requires,-
